

Garrick Plaisted

Technical Project Manager

Summary

I'm Project Manager with more than 15 years combined experience of web development and project management. I have supported organizations such as Mesa Public Schools, Cyberitas Technologies, and Prizelogic. I started my career as a developer then transitioned into a project manager, where I worked primarily with PHP and .NET development projects. Throughout my career I have managed international teams across a broad technical spectrum while successfully managing projects from start to finish.

Employment

● Engineering Project Manager

Prizelogic, LLC

Aug: 2019 to Jan 2020
